The new measure hampers general railroad operations. At some of the railroad stations involved the cars parked black sidings; moreover, the parking of so many bexcars increased the shortage of rolling stock in the country. The Czech rairload administration was, allegedly, compelled to borrow a 25X1 number of boxcars from neighboring countines.

| Comment. The information contained in the present report is believed to be correct. The measure reported was probably taken by order of the Seviet The Soviets keep a reserve of locometives and troop cars in border areas for possible troop movements.
